

PHIL VIGUS

Software Developer

PROJECTS

Weather - A weather forecasting site using React and Redux.

Chitter - A Twitter clone implemented in Typescript with React.

WhatStack - A cross between Stack Overflow and WhatsApp with real time messaging.

Trailers - A website to help my wife and I shortlist films to watch. The project that started it all, making me realise I wanted to be a software developer.

EDUCATION

Makers Academy (2000)
A 16 week intensive programming bootcamp

Exeter University (2004)
PGCE - ICT

Nottingham University (1999)
BSc Computer Science (2:1)

Hertford Regional College (1995)
A-Levels - Chemistry(A), Physics(A), Maths(A)

'A driven, dedicated full stack developer with a hunger to learn'

After qualifying with a degree in Computer Science, I have spent much of my career working in education. I am now returning to my roots in technology, and recently completed the Makers Academy coding bootcamp. I am seeking a role as software developer as I love the blend of creative and analytical skills required.

SKILLS

- **Languages** - JavaScript, Ruby, Typescript, CSS3, HTML5
- **Frameworks/libraries** - React, Redux, Express, Rails, Sinatra, Node.js, jQuery
- **Testing** - Jest, Jasmine, RSpec, Capybara, React testing library
- **Databases** - SQL, PostgreSQL, MongoDB
- **Methodologies** - OOP, MVC, TDD/BDD, Agile/Scrum/XP, remote working, pair programming, RESTful APIs, code reviews
- **Workflow** - Git, Github, Travis CI, Circle CI, Netlify, Heroku, VSCode, Ubuntu, OSX, Windows

CAREER HISTORY

Independent learning (Oct 2019 – Feb 2020)

- Coding, general computer science principles
- Deployment of a full stack JavaScript-based website using Express, and MongoDB

Freelance Audio Transcriber and Captioner (May 2019 – Oct 2019)

Exploring career options (Aug 2018 – Oct 2019)
